### **DETAILED ACTION**

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office Action.

#### ***Claim Rejections - 35 USC § 112-New Matter Rejection***

1. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

2. Claim 20 is rejected under 35 U.S.C. 112, first paragraph, as containing subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

Applicants have submitted an amendment to change the sequence of SEQ ID NO.6 which is recited in claim 20, as well as an amendment to change several other sequences which are not in the pending claim. They have stated that the amendment does not introduce new matter and that the changes have been made to correct for mistakes of a clerical and/or typographical nature. This has been fully and carefully considered but is not deemed persuasive given the evidence on hand. These sequences were not submitted at the time of initial filing. Any changes to an initially filed sequence constitutes a new sequence which is new matter. In order to overcome this rejection, Applicants must provide proof that they were in possession of these sequences at

Art Unit: 1645

the time of filing, i.e., through a deposited strain which carried the sequences, etc.. The Amendment to the sequences will not be entered.

3. The Declaration by Dr.Malcolm has obviated the former 112 enablement rejection.

Claim 20 would be allowed if SEQ ID NO:6 which contains the new matter were removed from the claim or if proof is submitted to show Applicants were in possession of amended SEQ ID NO: 6 at the time of filing. The claim with respect to SEQ ID Nos: 4, 8 and 10 is free of rejection and is allowable.

4. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

5. Papers related to this application may be submitted to Group 1600 by facsimile transmission. Papers should be faxed to Group 1600 via the PTO Fax Center located in Crystal Mall 1. The faxing of such papers must conform with the notice published in the Official
